

Assembly Instructions for #DKK Designer Kitten Keeper

Inventory: The #DKK Designer Kitten Keeper consists of (1) Length to order Fabric either 6" high or 10' high.

Step 1: Start with the end that has the 2 pieces of Velcro, make sure the seamed edges face into the enclosure.

Step 2: Starting in the middle of the 1st panel to the left of the door, push the end out between the 1st & 2nd bars, then in between the 1st & 2nd bar.

Step 3: Pass across the inside corner then out between the frame & 1st pipe on the next panel, then back in between the 1st & 2nd bar.

Step 4: Pull the keeper across the panel to the other end, then out between the 1st & 2nd bar & in between the 1st bar & the frame pipe. Continue around until you get to the door.

Step 5: At the last panel, push the end of the keeper out between the 1st bar & the frame & go around the outside of the frame of both the panel & the door, at the door go in between the frame & 1st bar then pull across the door opening to the other side of the door & out between the 1st bar & the frame. (See photo)

Step 6: Cross over the outside of the frames & in between the frame & 1st bar, pull tight to the middle of the panel you started at & attach the Velcro

Congratulations! You are now ready to use your Kali-Ko Kathouses #DKK Kitten Keeper.
